22 (Sat) May 2010

9:00-9:30 Opening ceremony Room of Osuzu

Opening address Tatsuo Suganuma, President of the University of Miyazaki

Guest address Keiichi Muraoka, Director General of JICA Kyusyu International Center

Chairman address Mitsuhiro Sezaki, Chairman of Arsenic-Sympo in MIYAZAKI 2010

Session 1: Report of Bahraich Arsenic Mitigation Project (BAMP) in UP State, India

Chairman: Koichiro Shiomori

9:30-10:20 Keynote lecture

- | | Page |
|--|-------------|
| K-1 Arsenic Contamination and Its Countermeasures in Uttar Pradesh State, India
R. M. Tripathi | 1 |
| K-2 Health Effect of Arsenic Contamination of Drinking Water in Uttar Pradesh
M. Z. Idris, R. T. Nixon and R. N. Tripathi | 7 |

10:20-12:00 BAMP Reports

- | | |
|---|-----------|
| B-1 Integrated Approach for Arsenic Pollution Mitigation in Uttar Pradesh State,
R. K. Jaiswal, Y. Yano and P. Jaiswal | 10 |
| B-2 Achievements of Project and Future Actions
H. Yokota | 18 |

12:00-13:00 Lunch break

13:00-14:20 Research Reports Related to BAMP

Chairman: Yasunori Yano

- | | |
|---|-----------|
| R-1 Skin Check-up for Chronic Arsenic Poisoning in Bahraich, Uttar Pradesh, India
N. Chosa, M. Amamo, M. Setoyama, C. B. Yadav, V. Kumar and Z. M. Idris | 25 |
| R-2 Characteristics of Ammonia Concentration of Groundwater in the Project Area
A. Kodama, Y. Yano, K. Shiomori, K. Ito and H. Yokota | 27 |
| R-3 Arsenic Concentration and Water Quality of Groundwater in the Project Area
M. Sezaki, K. Shiomori, D. Tagawa, K. Ito and K. Tanabe | 31 |
| R-4 The Proposal of New Research Program in India
Y. Kuroda | 35 |

14:20-14:50 Coffee break

Session II Reports from Arsenic Contaminated Area in Asia Countries

Chairman: Hiroshi Yokota

14:50-16:55 Invited lectures

- I-1 Arsenic Contamination, Health Effects and Remediation Strategies in Inner Mongolia, China **39**
X. Guo
- I-2 Arsenic Contamination in Groundwater and Its Countermeasures in the Mekong River Delta, Vietnam **52**
N. V. Lap, T. H. K. Oanh, I. Kobayashi, K. Terazaki and H. Yokoi
- I-3 Arsenic Contamination and Its Countermeasures in Bangladesh **56**
K. Kawahara
- I-4 Arsenic Contamination of Ronphibun Residents Associated with Uses of Arsenic-contaminated Well-water Other than Drinking **67**
S. Oshikawa, A. Geater and V. Chongsuvivatwong
- I-5 Arsenic Geochemistry and Human Health Issues in Asian Countries **73**
K. W. Kim, H. T. Hanh, K. Phan, N. V. Anh, S. Bang, S. Sthiannopkao and J. Y. Kim

16:55-17:20 Discussion & Summary
Chairman: Masugi Maruyama

18:00-20:30 Banquet, Room of Oyodo

23 (Sun) May 2010 Room of Osuzu

Session III Recent Arsenic Researches in Various Fields

Oral Presentations I

8:45-9:45 Chairman: Kaoru Ohe

- O-1 Application of Zr(IV)-immobilized Orange Waste for Arsenic Removal **83**
B. K. Biswas, K. Inoue, K. Ohto, H. Harada and H. Kawakita
- O-2 Arsenic Content in Geochemical Samples of Mongolia **85**
T. Tsetsegmaa, TS. Darjaa and D. Dorj
- O-3 Research on Physicochemical Factors in Arsenic Release Assuming the Deltaic Aquifer of South-Western Bangladesh **89**
N. Kato, Y. H. Han, Y. Ishibashi, S. Takahashi, S. Takahashi, T. U. Rahman and A. Mano
- O-4 Risk Management of Arsenic Contaminated Soil in Tunnel Excavation of Nichinan Group in Miyazaki, Japan **94**
K. Ito, H. Yokota, T. Hirata, K. Yamada and K. Kawano

9:45-10:30 Chairman: Munetoshi Miyatake

- O-5 Development of Methane Fermentation System by Solar Water Heating Device for Warm Region (Fundamental Experiment for Arsenic Mitigation) **96**

MD. M. Islam, S. Tomomatsu and Y. Asano

- O-6 Natural Attenuation of Arsenic Using Wetland System in the Abandoned Au-Ag Mining Area, Korea **100**

J. An, A. Y. Kim, J. Y. Kim, S. H. Lee and K. W. Kim

- O-7 Arsenic Stabilization in Contaminated Paddy Soil Around Abandoned Au-Ag Mine in Korea Using Various Additives **104**

M. S. Ko, J. Y. Kim, K. W. Kim, S. Bang and J. S. Lee

10:30-10:45 Coffee break

10:45-11:15 Chairman: Seishi Furukawa

- O-8 Promotion Effect of Diphenylarsenic Acid in Rat Liver Carcinogenesis **108**

T. Yamada, M. Wei, S. Yamano, A. Kakehashi and H. Wanibuchi

- O-9 Dimethylmonothioarsinic Acid is a Possible Ultimate Bladder Carcinogen of Arsenic in Rats **109**

M. Wei, N. Suga, A. Kanagawa, K. Yoshida, A. Kakehashi, G. Endo and H. Wanibuchi

11:15-12:15 Special lectures

Chairman: Seishi Furukawa

- S-1 Mild-type Chronic Arsenic Poisoning Confirmed in Three Areas of Southeast Asia between 1995 and 2008 **110**

N. Hotta

- S-2 The Study of Arsenic Contamination by Ganges Vally - Case of Bahraich **119**

N. Ueno

12:15-13:30 Lunch break

Oral Presentations-II

13:30-15:00 Chairman: Yoshinobu Ishibashi

- O-10 Degradation and Removal of Arsenic Compounds by TiO₂ Photooxidation **129**

T. Nakajima, H. Takanashi, T. Tominaga, K. Yamada and A. Ohki

- O-11 Characteristics of Arsenic Removal by Bacterium **133**

M. Miyatake and S. Hayashi

- O-12 As-Lipozyme: Characterization of Its Activity Like Antioxidative Enzymes **138**

L. Q. Tuan, T.T.T. Huong, H. Umakoshi, T. Shimanouchi, R. Kuboi, K. Shiomori and Y. Baba

- O-13 Survey of Arsenic Contents in Soils of Ganges River Basin by Using Neutron Activation Analysis **143**

T. Matsuda, Y. Maeda, I. Miyahara, K. Ohe, Y. Ogawa, M. Sezaki, K. Shiomori, A. Nakajima, K. Tanabe and E. Osada,

- O-14 Arsenic Elimination in Artificial Lake of Gatsuert Gold Mining Area, Mongolia **145**

T. Enkhdul, TS. Darjaa and D. Dorj

O-15	Arsenic Contamination in Mekong Delta and Its Removal by Domestically Available Materials L. Q. Tuan, N. H. Lam, M. T. H. Trang, T. T. T. Huong, K. Shiomori and H. Yokota	149
15:00-15:15 Coffee break		
15:15-16:30 Chairman: Kenichi Ito		
O-16	Geochemical Mobility of Arsenic in Mine Tailing Soils, and Its Removal Using Bioelectrokinetic Process K. Y. Lee, H. A. Kim, J. Y. Kim, K. W. Kim, S. O. Kim, J. U. Lee and Y. H. Kwon	153
O-17	Comparative Study on Arsenic and Heavy Metal Removal from Contaminated Soil Using <i>Acidithiobacillus thiooxidans</i> and <i>Acidithiobacillus ferrooxidans</i> H. A. Kim, K. Y. Lee, J. Y. Kim, K. W. Kim, S. O. Kim, J. U. Lee and Y. H. Kwon	157
O-18	Efficiency of Sand and Zero Valent Iron Mixture Bed to Remove Arsenic from Naturally Contaminated Groundwater M. A. Abedin, T. Katsumi, T. Inui and M. Kamon	161
O-19	Preparation of Arsenic Adsorbent from Neutralization Precipitates of Ferrous Oxides Produced at Abandoned Mine K. Shiomori, K. Yokoyama, A. Matsushita, S. Kiyoyama, T. Kokubu and K. Tanabe	166
O-20	Preparation of Magnetite with High Surface Area for Arsenic Removal K. Ohe, Y. Katafuta, H. Aogi, T. Oshima and Y. Baba	170
Session IV Poster Presentations		
P-1	Arsenic Adsorbent Material for Polluted Filtration (with High Efficiency) AMRON Co., Ltd.	175
P-2	Satsuma Yakuhinn Co., Ltd.	177
P-3	Speciation of As compounds by HPLC-ICP-DRC-MS Perkin Elmer Japan Co., Ltd.	178
P-4	Multielement Standard Solution Wako Pure Chemical Industries, Ltd	179
P-5	Quantitative Analysis of Arsenic Using Portable XRF. Techno X Co., Ltd.	180
16:30-17:45 Closing ceremony		
Closing address Mitsuhiko Sezaki, Chairman of Arsenic-Sympo in MIYAZAKI 2010
